The Certificate in Plaster Board Fixing & Finishing is a pre trade programme that gives you the skills and experience to progress into an apprenticeship. Outcomes include skills in safe working practices, calculations, knowledge of scaffolding, tools and equipment and a understanding of the different materials used in the interior plaster board industry.

On completion of this programme, you will have the core knowledge to work under supervision and alongside experienced workers within the Plaster Board industry.

You can then continue to work towards the National Certificate in Plaster Board through the Building & Construction Industry Training Organisation (BCITO) as an apprentice.
